FIELD AND GARDEN SEEDS

Twenty-Second Annual **PRICE LIST**

—OF THE—

G. B. CUTLER SEED CO.

Marshall, Minn.

March 1st, 1940

In presenting you this 1940 Price List, we wish to thank all our friends and customers for their past patronage.

Our old customers are well acquainted with our ways of doing business, and you should ask the old if in doubt as to our square dealings.

No Warranty.—We exercise extreme care in the filling of all orders, but we give no warranty, expressed or implied, as to the quality, description or productiveness, or any other matter of any seeds we send out, and will in no way be responsible for the crop.

Prices Subject to Change.—The prices quoted herein are based on market conditions at the time this list is issued and are subject to change without notice. We do not alter prices except in extreme cases, but if your list is an old one and you have occasions to presume that prices are either higher or lower, just write us for current list before ordering and we will supply one at once.

Orders Promptly Filled.—In case of delay you will be notified by letter explaining the cause of such delay and advised when shipment will be made. If you do not hear from an order sent us within a reasonable length of time, send us a duplicate, stating amount of remittance, and be sure to give your name and full address.

Terms of Sale—Cash must accompany orders and should be in the form of Money Order or Bank Draft, Currency or Registered Mail, or Bank Check.

G. B. CUTLER SEED CO.

MARSHALL, MINN.

GEORGE AND JULIUS

A Few Words From George

Here comes that book again to tell all about the good quality seed you can buy plus the big quantity for the lowest price. There's no need to go into this too deep, because most of you have been receiving one of these little seed books for the past 22 years, and I can truthfully say some have bought seed from me for that long, so you know that it's no blarney when I say I sell the best seed in the country. Now I'll do my best to give you a choice bit of literature to get you all in good humor before we have to put up our annual fight against cutworms, grasshoppers, hail, drought, and whatever other menace may come to take the joy out of living. One customer told me last spring that he always planted onions with his potatoes so the onions would makes the potatoes eyes water, then he didn't have to worry about a dry spell.

Always before I've written about the long trips I've taken and the bears, Indians, and tall buildings I've seen the previous summer, but last year, the first time in 20 years, we were unable to take a trip because of my wife's illness. My daughter and grandson from Pocatello, Idaho, came to visit us last summer and that was quite an event, since he is the only grandchild I have and I had never seen the little feller who was a year old then. I think he's a real smart little punk. He may even grow up and follow in his grand-dad's footsteps and be a seedman, who knows? I think he understood what it takes to make the grass grow, because he was good at this irrigating business. His mother was feeding him some high fallutin' baby food when they came, but I soon taught him how to eat fried potatoes and pumpkin pie and I really believe he went home healthier looking than when he came. If any of you readers have any ques-

tions about raising kids, flowers or vegetables, it's all in my line and no doubt I could help you.

I don't believe in being too fussy when it comes to feeding the kids. They'll grow like weeds just the same. My daughter went in a store here to buy some crackers for the boy. She said to the grocer, (I could mention his name but for business reasons I'll omit it), "I don't want those crackers. Some one told me that the rats run over them." The grocer said: "That's impossible, because the cat sleeps in the box every night." Now it sometimes pays to be careful because I've been more careful myself since I read the following verse on a stone:

"Beneath this stone, a lump of clay
Lies Uncle Peter Daniels
Who too early in the month of May
Took off his winter flannels."

I'm at a loss to know what to write since I can't tell you about my summer vacation. Maybe those long accounts about my trips don't sound very interesting to you folks, but I get a kick out of looking at sights that I don't get a chance to see in Marshall. A seedman has to do something to pass the time when summer comes and no seeds to sell. They say a woman is as old as she looks, but a man is old when he stops looking.

It would be useless for me to tell you how to raise good gardens or what to raise to feed your stock to make them grow fat, because the exhibits at the Lyon County Fair are proof that you all know your stuff along those lines. I can truthfully say that last year I raised the tallest castor bean plant I've ever seen. It was at least 15 feet high and furnished shade for the rest of my garden. Also I raised more nice tomatoes off one small patch than I ever thought possible. My

spare time was taken up keeping the tomatoes picked, which reminds me of a man here in town who I overheard the other day engaging a new chauffeur. He said: "And when you're not driving the car, or cleaning it, there's the poultry house to clean out, and the dogs to look after, and the lawn to mow and you can give the gardener a hand in your spare time."

"What kind of soil is it?" asked the chauffeur.

"Soil! Why?" asked the man.

"Oh, I just thought if it was clay soil might make a few bricks to fill in the time," replied the chauffeur.

Well folks, I must hurry and get this off to the printers. Don't forget to read the rest of the book about all the seed values; then drop in this spring and let us help you with your planting problems.

So long,

GEORGE

ALFALFA

Our seed all comes to us in sealed and branded bags, and is of the 1st grade. You have likely been hearing over the radio about the cheap seed you can buy. If you have, send for sample and see then if you want the grade of seed advertised.

Northern Grown Alfalfa

This does not need any explanation as everybody knows how good it is and every farm should have a few acres.

Do not buy Alfalfa seed that is offered cheap as it may be southern grown seed which is always cheaper than northern grown seed. The southern grown alfalfa, grown from this seed will not stand our cold winters.

This year the Minnesota law says that no Grimm's Alfalfa can be sold without a state seal so do not be misled by buying cheaper seed from some other state that does not have that law. Our seed is the blue tag or the best grade, put up in towel bags 30 and 60 pounds each and the price for that kind of Grimm's Alfalfa is per lb. -----36c

Our Cossack Alfalfa, as perhaps you all know, is a hardy plant, as much so as Grimm's, but makes a finer grade of hay.

Our price is per lb. -----32c

The Dakota 12 is nothing new, we all know about that.

Our price is per pound -----28c

Minnesota grown

Nitragin

Inoculate your alfalfa and clover with Nitragin for best results.

1/2 bushel size can -----30c

1 bushel size can -----50c

SWEET CLOVER SCARIFIER

Having just installed a new modern Scarifier we are able to do you a better job and in less time than before. Bring in your Sweet Clover—have it scarified and cleaned. Our price is 80c per cwt.

Medium Red Clover

This seed is grown in Minnesota, cleaned in fine shape and is the best grade to be had.

Price per lb. **23c**

Sweet Clover

All of this seed is scarified

White Blossom—

1st Grade, per lb. ----- **7c**

2nd Grade, per lb. ----- **6c**

3rd Grade, per lb. -----

Yellow Blossom ----- **7c**

Grundy Co. or Dwarf ----- **7c**

Alsike

This is by all means the best clover for a low land pasture.

Price per lb. **25c**

Milletts

Hungarian, Per cwt. -----

Siberian, Per cwt. ----- **\$3.50**

German, Per cwt. ----- **\$3.50**

Japanese, Per cwt. -----

Proso or Hog, Per cwt. ----- **\$3.00**

White Dutch Clover

This is the kind to sow on your lawn. Also good in a pasture mixture.

Per lb. 70c

Grass Seeds

Timothy, price per pound ----- 7c

Timothy and Alsike Clover mixed

20 per cent Alsike, 80 per cent

Timothy, price per lb. ----- 11c

Red Top, price per pound ----- 16c

Blue Grass, price per pound ----- 25c

Bromus, price per pound ----- 20c

Reeds Canary Grass, per lb. ----- 22c

Rye Grass, per lb. ----- 10c

Crested Wheat Grass ----- 20c

Dwarf Essex Rape

This seed is grown in Holland and sure is the quickest pasture for cattle, hogs and sheep when sown in spring. For fall pasture nothing gives more cheap feed than Rape sown in small grain. Price per cwt. ---- \$10.00

Sudan Grass

A great one year hay and pasture grass; can be cut for hay two or three times a season, a little coarse, but very good feed. Price per cwt. -- \$5.00

Home Grown ----- \$4.00

Amber Cane

One of the greatest fodders—if mixed with corn. Price per cwt. \$3.00

Kaffir Corn

If cut green makes fine fodder. If allowed to ripen, is one of the best feeds for chickens. Per cwt. --\$4.50

Grahoma

A real feed. Per cwt. -----\$4.50

Hegari Cane

Similar to Cane. Per cwt. ----\$4.50

Atlas Sorgo.

A Sweet Fodder, per cwt. ----\$5.50

Sweet Corn

Golden Bantam for fodder. Per lb. 8c

Soy Beans

Manchu, per cwt. -----\$4.00

BEMIS "A" GRAIN BAGS, Each 35c

Jacques (Jakes) Hybrid Seed Corn

Raised in Minnesota. We are now taking orders for Jacques 100, 105, 110 day corn which has proven to be one of the best for this territory.

Lyon Co. Grown Hybrid

Minhybrid No. 403-301, 107-Day Corn

Flats	-----	\$6.25
Medium Flats	-----	\$4.75
Large Rounds	-----	\$3.75

—12—

Lowalth, King Of The Hybrids

Lowalth grown by the Michael Leonard Seed Co., is also a Minnesota grown Hybrid 105 day variety.

You can send in your order for this corn now to be delivered about April 15th. This will be held for you with \$1.00 per bushel down.

Flats	-----	\$7.00
-------	-------	--------

—13—

GARDEN SEEDS

Why pay two prices for your garden seed done up in packages with a pretty picture on it? If you do so—you have to pay for the picture extra.

Our seeds are in plain packages with more seeds for less money. If you would like different varieties not listed below we can furnish same.

We pay postage on all garden seed. If you want package seeds will furnish them at 5 cents per package.

Beans

Golden Wax, per pound	-----20c
Black Wax, per pound	-----20c
Stringless Green Pod	-----20c
Bush Lima, per pound	-----20c
Navy, per pound	-----12c
Red Kidney	-----20c
Great Northern	-----12c
Yard Long	-----30c

Fruit can be grown successfully in every part of Minnesota, says E. M. Hunt, extension horticulturist, University Farm, St. Paul. Since a constant fruit supply makes for better and more economical living, many farmers will be interested in the new Extension Bulletin No. 205.

Onion Sets

Bermuda Onion Plants

Will have a good supply in season and will be able to sell them as cheap or cheaper than you can get them elsewhere.

Frost Proof Cabbage Plants

In Season

50 Plants, postpaid	-----30c
100 Plants, postpaid	-----55c

Tomato Plants

Large strong and healthy plants

1 Doz. Plants, postpaid	-----15c
5 Doz. Plants, postpaid	-----65c

These plants are all cheaper if you call for them here.

FLOWER SEEDS

	Oz.	Lb.
Sweet Peas, mixed	----- .10	1.50
Nasturtiums, mixed dwarf	.10	1.50

Any other flower seeds that you may want will furnish at FIVE CENTS a package.

When you need seeds, remember that G. B. Cutler Seed Co. offers only the best in seeds. A trial order will convince you.

Sweet Potato Plants

These were tried out here last year and some very nice sweet potatoes raised from them. Will have these plants here about May 15th and the price will be right.

(Not Treated)

(Treated)

SEMESAN

Semesan Bel, for potatoes, 1 lb. — \$1.40

Semesan Jr., for Corn, 1 lb. can — 75c

Ceresan, for Grain, 1 lb. can — 75c

5 lb. can ————— \$3.00

HOT KAPS

For earlier crops use the Hot Kaps.

Price per doz. ————— 20c

Large Lots Cheaper.

CROP INVENTORY HELPS

To find the number of bushels of grain or shelled corn in bin or box: Multiply length by width by depth in feet and multiply by 8 and leave off last right-hand figure, e. g., 100 cubic feet times .8 equals 80 bushels.

To find the number of bushels of ear corn in crib: Multiply length by width by average depth in feet to determine cubic feet. When sides of crib are flared add width at floor and width at top of corn and divide by 2 to find average width. To find cubic feet in round crib multiply distance around by average height by 2/25 of the distance around.

Ear corn will run from $2\frac{1}{4}$ to $2\frac{1}{2}$ cubic feet per bushel, depending upon the size and shape of the ears. Hence divide cubic feet by either $2\frac{1}{4}$ or $2\frac{1}{2}$. If $2\frac{1}{2}$ is to be used same result can be obtained by multiplying by 4 and leaving off the last figure to the right. The above table is figured basis $2\frac{1}{2}$ cubic feet per bushel.

G. B. CUTLER SEED CO.

Garden Seeders and Cultivators

These seeders are complete. They are a combination seeder and cultivator.

Price each \$15.00

Cultivators

Single Wheel, Complete.

Price each \$6.50

Clipper Cleaner

This year we are selling the Clipper Mills and as you all know this is the best mill for cleaning all kinds of grain and seed. Screens for all purposes.

They come complete with 12 screens and for motor or hand power.

No. 1 Clipper	\$43.00
No. 2 Clipper	\$48.50
